

TH1000SK Kit

Topper / Hedger / Skirter

Developing innovative solutions for nearly 40 years

TH1000SK Kit

Topper / Hedger / Skirter

www.tol-inc.com

The TH1000SK kit was designed with the small grower in mind. The kit can be mounted on their tractor during the pruning season and then removed once the pruning is completed.

This allows the owner to use the tractor for other applications throughout the year. The TH1000SK kit is designed to perform mechanical topping, hedging and skirting.

The compact design of the machine is well suited to even the tightest planted orchards. The TH1000SK kit is also a great option for narrow hedging of almonds.

Specifications:

- Cutting Pass: 11ft
- Max Hedging Height: 28ft
- Max Flat Topping Height: 17ft
- Transport Height: 10ft
- Cutting Capacity: 2.5in
