- Medium duty
- Efficient in tightly planted orchards
- Suited to most tree crop
- Cutting head swings for extra reach
- Cuts over the center of the row
- Variable-speed rotating cross

The TH1100CT-H topper hedger is a medium duty, self propelled machine designed to cut wood up to 3 inches in diameter. The center tower design allows the machine to be utilized in almost all orchards: citrus, stone fruit and nuts.

Specifications:

- Cutting Pass: 11ft
- Max Hedging Height: 31ft 6in
- Max Flat Topping Height: 18ft
- Transport Height: 10ft 10in
- Cutting Capacity: 3in
- Engine: 140hp John Deere Final Tier 4 Diesel Engine
- Five 24-inch diameter saw blades
- Optional 4-Wheel Steering
- Optional side-tilting chassis

*All dimensions are approximated.

The machines pictured in this brochure are intended to illustrate the general appearance and features of these products. They are equipped as specified by a particular customer and may or may not show items that are optional or recommended. Specifications, illustrations, and descriptive materials herein were accurate as known at the time this publication was approved for printing. We reserve the right to discontinue models or options at any time or to change specifications and materials, equipment and design without notice and without incurring obligation.
